

# Tutorial 0 - How to install Python and Image Processing Libraries

September 25, 2024

**Jarrian Vince G. Gojar**

Instructor I

*College of Information and Communications Technology, Sorsogon State University, Philippines*

## 1 How to Install Python and Image Processing Libraries

### 1.1 Install Python

1. Download Python from [Python.org](https://python.org).
2. Run the installer.
3. Check the box that says “Add Python to PATH”.
4. Click “Install Now”.

### 1.2 Install Image Processing Libraries

1. Open a terminal or command prompt.
2. Run the following commands:

```
pip install opencv-python opencv-contrib-python matplotlib pillow numpy scikit-learn scikit-im
```
